

SPECIFIC GUIDELINES PACK

This document acts as a guide to the specific considerations and undertakings for your potential record attempt and is to be used in conjunction with the **Guide to Your Evidence**, which outlines the evidence we require to verify the success of your record attempt. These guidelines should be read and understood by all concerned with the record attempt prior to the attempt – this includes every participant, organiser and witness.

These guidelines are specific to your record attempt and **must** be followed. Should any part of these guidelines be contravened, your record attempt will be disqualified, without any right of appeal.

Additionally, these guidelines in no way provide any kind of safety advice and cannot be construed as providing any comfort that the record attempt is free from risk.

Guinness World Records accepts no responsibility for the safety of participants or bystanders in any record attempt. It is your sole responsibility to ensure that (a) all necessary safety precautions are in place and that all equipment used is suitable and thoroughly checked prior to the record attempt taking place and (b) you are in compliance with all applicable health and safety laws and regulations.

Finally, the provision of these guidelines in no way constitutes Guinness World Records' consent for you to undertake a record attempt. Any record attempt will only be considered to be authorised by us where you have signed our standard agreement in relation to record attempts.

Most participants in an underwater clean-up (single venue)

Record definition

- This record is for the greatest number of people participating in an underwater clean-up at events held within a 24-hour period at a single venue.
- For the purposes of this record, an underwater clean-up is defined as a continuous operation in which divers wearing breathing apparatus search an underwater area for man-made waste products with the aim of removing them from the natural environment.

Rules for Most participants in an underwater clean-up (single venue)

1. The participants should be supported at all times by a support vessel for safety and to allow accurate tracking of the record attempt.
2. The water at the chosen location must be deep enough for all participants at that location to be entirely submerged.
3. All participants must be certified divers. Diving qualifications acceptable for the country where the attempt is taking place must be provided to the independent witnesses prior to the dive.
4. In order to be included in the final total, all divers must retrieve at least one piece of clearly identifiable man-made waste from the water. Anyone who does not remove any waste is not to be included in the total.
5. The events must take place within a single 24-hour time period, regardless of time zones if the attempt takes place worldwide. That is, if the event starts at noon GMT on Friday, it must end at noon GMT on Saturday.
6. The event is continuous. The clock does not stop. 24 hours means a complete 24-hour cycle including rest breaks. For example, if the event starts at 12 noon on Monday, it must finish at 12 noon on Tuesday.
7. Two experienced timekeepers (e.g. from a local athletics club) must time the attempt with stopwatches accurate to 0.01 seconds.

Rules for 'mass participation - single venue' records

Please make sure you follow ALL these rules:

- a. The attempt must take place at a single location; in a gymnasium, educational establishment, conference or exhibition hall or some similar, public outdoor area.
- b. The attempt must take place in a restricted area with entrances and exits clearly marked and controlled.
- c. Indoor attempts must take place in a room designated for the attempt and outdoor attempts must be secured with fences or other physical barriers.

STEWARDS

- d. For every 50 participants there must be one designated steward.
- e. Stewards must not come from the organisation holding the record attempt.

- f. Each steward must be allocated a specific group of participants who are to be positioned in a clearly delineated area assigned to that steward. This can be done using coloured clothing, a clearly marked area or another method pre-approved by Guinness World Records.
- g. Each steward must supervise their group during the attempt to ensure full participation.
- h. Each steward must monitor if anybody in their group leaves the area.
- i. The steward must note any participants who need to be deducted from the final total either for non-participation or for leaving the allocated area.
- j. If the total number not participating exceeds 5% of the final total the attempt will be disqualified.

WITNESSES

- k. Where the attempt has less than 5000 participants it must be overseen and verified by at least two independent witnesses.
- l. Where the attempt has 5000 or more participants it must be overseen by two independent witnesses and verified by an independent, professional, auditing firm.
- m. The witnesses must personally perform the counting process or directly observe it.
- n. The witnesses must perform spot checks during the attempt to ensure the rules above are adhered to.

PRE-APPROVAL

Please submit the following information prior to the record attempt to obtain approval of the proposed methods. Any attempts not pre-approved may be rejected if the process is not deemed acceptable.

1. Counting Method

Attendance numbers must be accurately counted and confirmed using an approved method. Specific measures to ensure participants are not counted twice must also be outlined. Please see the 'Acceptable Counting Methods' Guide at the end of this document.

2. Venue Layout

All venue layouts with entrances and exits marked must be submitted.

3. Verification Method

The proposed method for verification must be explained in detail.

4. Delineation of Area

If you wish to use a different method of delineation than those suggested (f), please also submit it for pre-approval with your other plans.

Plans for pre-approval must be sent using the Correspondence function within your application. Attachments such as venue layouts can be uploaded via the Evidence function. You do not need to use the Submit Evidence button after uploading; as long as you write to us in Correspondence and make sure to save the changes to your application, the materials will appear for us to review.

ACCEPTABLE COUNTING METHODS

Participants must be counted individually by an efficient, accurate method upon entering the venue. Stewards' individual counts of their sections does NOT constitute an acceptable counting method for the record total, and is meant only to ensure full participation by all those involved in each of their individual sections. The below counting methods are acceptable when performed accurately and in accordance with all guidelines outlined above. Guinness World Records may

accept additional methods, provided these methods are pre-approved.

- Barcoded ticketing system – Tickets obtained prior to the event are scanned as participants enter and the scanner registers the number of tickets. If participants pre-register online and obtain a personalized barcode, the machine can also register their names and other information.
- Wristbands – These can be barcoded (as with a ticketing system) or individually numbered and handed out in order by independent individuals at the entrances.
- Turnstiles – Counters on each turnstile record the number of people passing through into the attempt area.

For attempts of 1,000 participants or less ONLY:

- Clickers – two at each entrance in order to obtain maximum accuracy. These must be operated by independent individuals with no interest or affiliation in the attempt.
- Ticket stubs collected at the entrance(s)

Please make sure you supply the following evidence:

- One cover letter explaining the context of the record attempt. Please indicate the date, time and exact location of the record attempt, your chosen witnesses and your record attempt measurement. Also please provide full details of the person(s)/organisation attempting the record including details on the preparation for the attempt.
- Two independent witness statements confirming that the rules above have been adhered to and must explicitly state the exact and final figure of the total participants taking into account any participants whom the stewards deducted from the total. Statements must describe the counting process and overall attempt in details.
- Steward statements verifying the exact number of people successfully completing the activity that is the subject of the record attempt.
- Where the attempt is for 5000 participants or more an official auditor's report must be submitted from an independent, professional auditing firm and must confirm the exact and final figure of the total participants taking into account any participants whom the stewards deducted from the total, as well as all details of the verification process.
- Photographic evidence of your attempt taking place capturing the details provided by the independent witnesses. The photographic evidence must include an aerial photo of the crowd or a photo showing the entire group.
- Video evidence of the entire record attempt, from start to finish that enables us to confirm the measurement achieved, that the guidelines have been adhered to and verify the details provided by the independent witnesses. In addition, all entrances and exits must be monitored on video and the counting process must be clearly visible in the video too.
- Schedule 2 should be signed by you when you are sending in evidence which you either own or have permission to allow Guinness World Records to use.
- If you include any photographs or video in your evidence which you do not own or have permission to allow Guinness World Records to use, then you must include Schedule 3.
- Media articles (newspaper, online, TV or radio) should be submitted as part of the evidence

requirements. This is not compulsory evidence.

Please read the Guide to Your Evidence document, where you will find further information about the evidence requirements and evidence templates. It is paramount this document is read before you submit your evidence.

Evidence checklist

- Witness statement 1
- Witness statement 2
- Steward statements
- Auditors report
- Layout of attempt area
- Video of the entrance/exits
- Video evidence
- Schedule 2 (signed)
- Schedule 3 (signed)
- Media articles
- Cover Letter
- Photographic Evidence
